How to read this catalog

Every fragrance is listed with its serial number and its notes. A scent unfolds in three layers, from the first impression to what lingers on the skin.

■ Top notes

The first impression: light, bright notes you smell right away, such as citrus and fresh fruit.

Vanilla Dream: coconut, brown sugar

■ Middle notes

The heart of the scent: florals and softer notes that come through once the top notes settle.

Vanilla Dream: orchid, heliotrope

■ Base notes

What lingers: deeper notes such as vanilla, musk, amber and woods that last the longest.

Vanilla Dream: almond, amber
